Portfolio

PROFESSIONAL SUMMARY

Frontend Developer specializing in React applications with expertise in building scalable, user-centric web applications. Experienced in API integration, state management, and responsive design. Proven ability to deliver feature-rich applications from concept to deployment.

TECHNICAL SKILLS

Frontend:

JavaScript (ES6+), HTML5, CSS3

React Ecosystem:

React Hooks, Context API, React Router, Custom Hooks

Tools & Technologies:

Git, GitHub, Vite, VS Code, npm, Vercel, Netlify

Design:

Responsive Design, Mobile-First Development, UI/UX Implementation

PROJECTS

Film Flow - Movie & TV Discovery Platform   Live Demo   GitHub

React, Context API, React Router, TMDB API, Tailwind CSS

- Built full-featured entertainment platform with 15+ pages and 6 dynamic carousels
- Implemented advanced filtering system with 50+ genres, year ranges, and language options
- Created favorites system with localStorage persistence and type detection for movies/TV shows
- Integrated multiple TMDB API endpoints for trending content, search, and detailed media info
- Designed responsive UI with smooth scrolling carousels using useRef and custom navigation

Weather Dashboard Application   Live Demo   GitHub

JavaScript, OpenWeather API, HTML5, CSS3

- Developed weather application displaying real-time conditions and forecasts using OpenWeather API
- Implemented location-based search functionality with error handling for invalid inputs
- Designed responsive interface with dynamic UI elements that adapt to weather conditions

Portfolio Website

HTML5, CSS3, JavaScript (ES6)

- Built custom portfolio site featuring project showcase and responsive design
- Implemented smooth scrolling navigation and dynamic content rendering
- Optimized for performance and cross-browser compatibility

EDUCATION & LEARNING

Bachelor of Arts in Philosophy

Olabisi Onabanjo University, Ogun State, Nigeria • Graduated 2021

Self-Taught Web Developer

< class="school"> August,2025 - Present

- 300+ hours of focused learning through documentation, tutorials, and project-based practice
- Specialized in React ecosystem, API integration, and modern JavaScript patterns
- Built multiple production-ready applications demonstrating full development lifecycle

ADDITIONAL INFORMATION

Interests:

Photography, UI/UX Design, Web Performance Optimization

Languages:

English (Fluent)
